WHO WE ARE

The Lawton Standard Co. delivers high-quality iron and steel castings, specializing in complex metallurgical work and offering complete solutions from tooling to finished parts. Backed by advanced technology, expert engineers, ISO certifications, and an integrated supplier network, Lawton upholds the highest standards—The Lawton Standard. Led by the owner of a fifth-generation family foundry, the company operates with a “Family First” culture and a focus on sustainability and future growth.

WHO WE SERVE

- heavy industry and equipment
- construction
- off-highway
- mining
- oil and gas
- cement manufacturing
- paper mills
- tool and die
- original equipment manufacturer
- pump and valve
- fluid power
- transportation
- refrigeration and air handling
- aerospace
- recycling
- waste-to-energy

WHAT WE VALUE

- Reliability
- Continuous Improvement
- Integrity
- Innovation
- Sustainability

**IRON CASTINGS UP 45,000 LBS
STEEL CASTINGS UP TO 5,500 LBS**

**ISO CERTIFIED AT ALL
LOCATIONS**

**UNPRECEDENTED
EXPERIENCE SINCE 1879**

INTEGRATED CASTING SOLUTIONS FROM CONCEPT TO COMPLETION

MULTI-METAL, MULTI-SITE, MULTI-CAPABILITY

WHAT WE DO

CAPABILITIES BY LOCATION

LAWTON DE PERE **FORMERLY** **THE C.A. LAWTON CO.** **CAPABILITIES**

- Grey and ductile iron castings
- Producing castings 500 – 30,000 lbs
- On-site pattern and machine shop
- No-bake molding

LAWTON MINSTER **FORMERLY** **THE C.A. LAWTON CO.** **CAPABILITIES**

- Grey and ductile iron castings
- Producing large castings 500-45,000 lbs
- Complex cores
- No-bake molding
- On-site pattern shop
- On-site paint and heat treating services

LAWTON HANOVER ALSO KNOWN AS PENN-MAR CASTINGS (PMC)

CAPABILITIES

- Grey and ductile iron castings
- Producing castings 250 - 3,700 lbs
- Complex cores
- Flaskless molding line
- No-bake molding

LAWTON ANNISTON FORMERLY RMG (RENAISSANCE MANUFACTURING GROUP)

CAPABILITIES

- All ductile iron grades, including compacted graphite (CGI), ADI, and special chemistries
- Produces parts from 5 to 150 lbs
- Flask size: 24" x 32" (10" x 10" cope/drag)
- Hi-temp and hi-abrasion applications (e.g., SiMo grades)

LAWTON ST. PAUL ALSO KNOWN AS NORTHERN IRON (NIM) CAPABILITIES

- Grey, ductile, and austempered iron castings
- Up to 250 lbs
- Green sand molding lines
- On-site full-service machining capabilities
- On-site pattern services for production support

LAWTON NOVI PROUDLY OFFERING TEMPERFORM AND DAMASCUS STEEL PARTS CAPABILITIES

- Steel and stainless steel castings
- Producing castings 2 - 5,500 lbs
- Shell and ceramic molding
- No-bake molding
- On-site machine and pattern shop
- Hard-facing and protective coatings

LAWTON GRAFTON FORMERLY RMG AND WISCONSIN PRECISION MACHINING

CAPABILITIES

- Precision CNC machining for iron and steel castings
- Large vertical and horizontal milling
- Multi-axis turning
- Custom fixture design
- Final assembly and packaging
- Quality inspection and testing

RMG SALES AND SERVICE FORMERLY RENAISSANCE MANUFACTURING GROUP

RMG Sales and Service, a division of Lawton Standard, supports customers across all Lawton foundries with a focus on delivering engineered cast components. Located in Menomonee Falls, WI, the team provides hands-on service, field visits, and deep casting expertise. From quoting and prototyping to final delivery, they ensure precision, performance, and customer satisfaction.
